

Call for Abstracts

12th International Conference of the Hellenic Geographical Society
ICHGS - 2019

INNOVATIVE GEOGRAPHIES II: *Mapping and Modeling our World*

The 12th International Congress of the Hellenic Geographical Society (ICHGS - 2019) will be hosted by the [National Technical University of Athens](#) (NTUA, [Patission Complex](#) ) from November 1 - 4, 2019.

The [Hellenic Geographical Society \(HGS\)](#) is a national organization that, promotes the exchange of knowledge, theory, methods and technologies and their applications to the analysis and planning of cities, regions and their environment across the globe. HGS represents the interests of geographers in Greece (Hellas), and is a member of the [European Association of Geographers \(EuroGEO\)](#), and the [International Geographical Union \(IGU\)](#) which service the needs of geographers throughout Europe and the world, respectively.

The conference is, above all, an opportunity for collaboration between geographers from different countries. It is also a call for practitioners, academics, or students of Geography to deepen their knowledge on both the physical properties of Earth's surface and the human societies spread across it and to share their research and application ideas.

All accepted and registered papers shall be published in the [European Journal of Geography](#) which is abstracted and indexed in Scopus. Templates and guidelines may be found [here](#).
